

2018 GIS CAMP WATER POLLUTION IN LOWER INCOME E AREAS OF BUFFALO!

James Daniel Sullivan story map

THE PURPOSE

The reason I conducted this study was because I wanted to see if there was worse water pollution in lower income areas because we all hate water pollution

WHERE IT TAKES PLACE

It takes place in the buffalo area

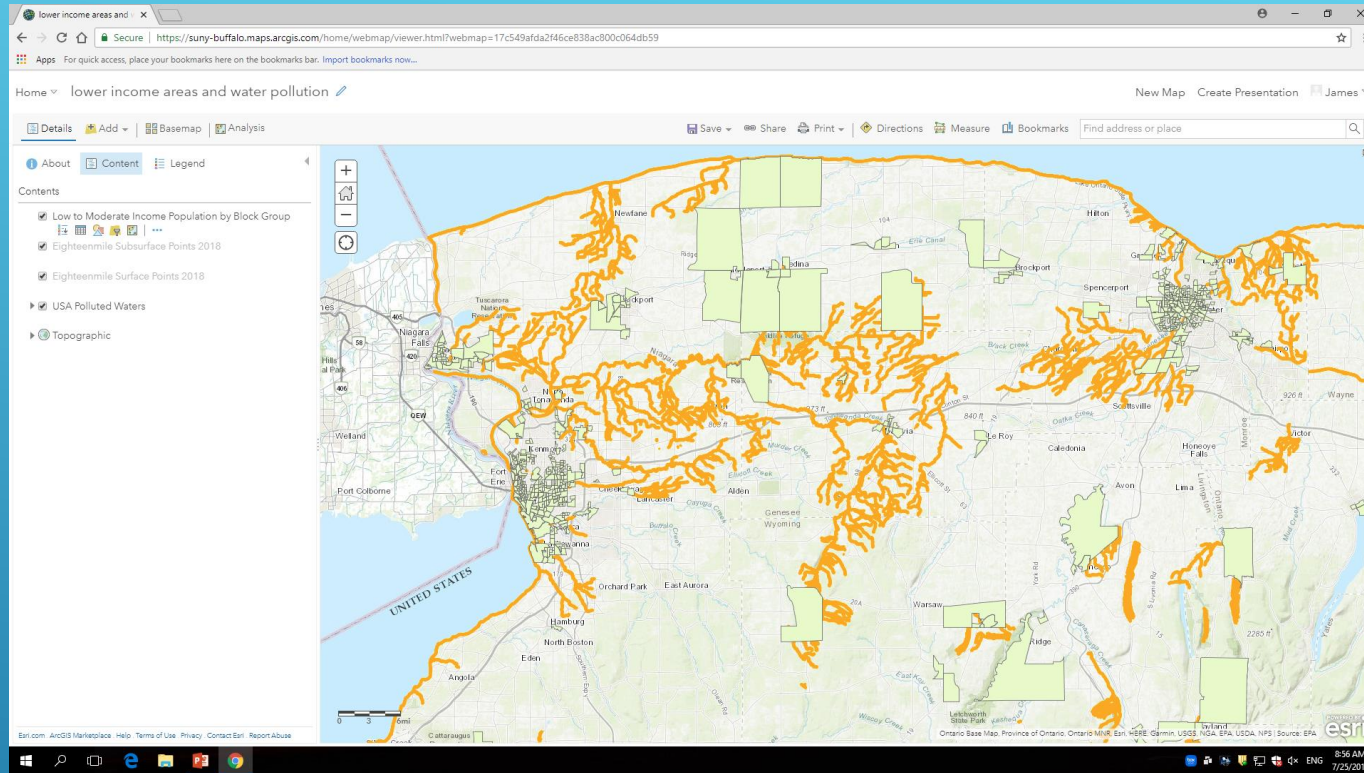

THE ANALYSIS

I did the analysis using arcgis online using the search for layers option selected one did research then conculed that that one was the most accurate.

THE INFO

I got my info from arcgis online and wikiapidia also statictals.com

RESULTS LOOKED LIKE THIS

IT WAS NOT RELATED

- ▶ I found that water pollution was the same in lower income areas as it was in higher income areas

CAREERS
